

Consensus statement from the Australian Knee Society (AKS) and the Arthroplasty Society of Australia (ASA) regarding dilute Povidone-iodine wash for irrigation of wounds during surgery.

The AKS and ASA endorse the consensus statement from the International Consensus Meeting on Musculoskeletal Infection (ICMMI 2018) supporting the use of sterile dilute Povidone-iodine for the irrigation of wounds during surgical procedures. Surgeons are encouraged to refer to the ICMMI document for further reading <https://icmphilly.com>
